Eric:

It has come up in a discussion between Colleen Walling [Ex. 4 - CBI] and myself that for Financial tracking purposes the Alpha letters will probably not work so we are probably going back to the individual TDF number system for clarity. Thanks for your assistance.

Judy,

You can use the Alpha listing style (A,B,C,D,E) with the different TDFs.

Colleen and I have discussed the new site, Dimock GW, and she has issued a blanket TDF #1079A for this. My question to you is if we use the same TDF # for different SDG #'s will it be better to use the Alpha listing such as B, C, D, E. etc. or - 1, -2, -3? Please advise what will make it the easiest for tracking purposes in the ESAT Database program for you to pull the information necessary for reports, etc.

Thanks for your assistance.
